WORK EXPERIENCE

1 Bit Software Development Corp Makati, Philippines   July 2022 - June 2023

- Utilized agile development methodologies such as Scrum and Kanban to deliver projects efficiently
- Collaborated within a team environment, employing a test driven development approach
- Implemented comprehensive unit testing and integration testing for frontend with Jest, Vitest, RTL, MSW and Storybook
- Created mobile applications for Android and iOS using React Native and its robust ecosystem including Expo
- Designed and developed multi-page web applications using Next.js, leveraging its extensive feature set
- Collaborated with cross-functional teams, including backend developers and UI/UX designers
- Demonstrated best practices and industry standards such as SOLID, KISS, DRY principles, and usage of TypeScript
- Optimized frontend application performance by utilizing browser caching, image optimization and Hermes engine
- Utilized version control systems and collaboration tools such as Git, GitHub, and Jira
- Demonstrated proficiency in utilizing more modern frontend solutions such as Svelte, SolidJS, Qwik
- Actively participated in code reviews, providing constructive feedback and suggestions to improve code quality
- Leveraged AI-powered tools, to expedite development processes and enhance productivity in project execution

Quantified Energy Labs West Region, Singapore   December 2021 - May 2022

- Played a pivotal role as the sole frontend developer in a deep tech startup company
- Adapted quickly to a dynamic startup environment, demonstrating flexibility, resourcefulness, proactive approach to learning
- Collaborated closely with the sole backend developer to deliver a minimum viable product as quickly as possible
- Designed and developed the frontend architecture and user interface utilizing Figma, React, React Router, Leaflet and Chart.js
- Successfully delivered a user-friendly and responsive web application, exceeding client expectations within tight deadlines
- Actively contributed to the growth of the company, taking on additional responsibilities beyond frontend development

Bytedance Pte. Ltd. Work from Home   April 2021 - October 2021

- Supported the frontend development team as an intern in delivering web applications
- Gained hands-on experience with frontend development utilizing React, Bootstrap, Tailwind, Git, GitHub, TypeScript and Figma
- Communicated effectively with team members of interns assisting in the identification and resolution of bugs and issues
- Assisted in the integration of frontend components with backend APIs
- Assisted senior developers to implement frontend solutions, following established coding standards and best practices
- Assisted in the development of new features, functionality and simple components
